

Crooks of Baden & Fraudsters of Wurttemberg

The German House of Wurttemberg are one of the most dominant and oppressive bloodlines of the Holy Roman Empire and they work closely with German House of Baden-Zahringer. The Badens and Wurttembergs have about a dozen

billionaires serving them. Their former dukedoms and kingdoms merged creating the modern German state of Baden-Wurttemberg. The Wurttembergs are currently headed up by Duke Carl von Wurttemberg and his children Duke Friedrich who is now dead, Duke Philippe, Duke Eberhard, Duke Michael, Duchess Mathilde, and Duchess Eleanor Fleur. Count Conrad I von Wurttemberg was the founder of this royal house and made an alliance with the Roman Catholic Hirsau Abbey which he financed the Romanization of. The Wurttemberg family married with the Roman Catholic Orleans, Bourbon-Two Sicilies and Pallavicini families in this past century. The Wurttembers often take their orders from the

Pallavicinis. The Wurttemberg family employ through their royal court various businessmen like Reinhold Wurth who is from Wurttemberg and worth about 10 billion. A noble or royal house is a corporate entity. The name Wurttemberg derives from the earlier name of Wirdeberch. The German words Wird or Wirt refer to talking, speech, command or words. The current Director of the New York Stock Exchange is Jeffrey Sprecher and he is a white collar crook. Sprecher is a German name and derives from Sprechen and like Wirt also means to talk or speech. The Frankfurt Stock Exchange has origins with the ancient trade and currency fairs in Frankfurt which later influenced modern stock exchanges. The Wurttemberg family have

command in Wall Street. They use words connected with numeric codes to communicate information to associates and businessmen in regards to trading stocks in order to evade insider trading regulations. They use various books and their pages, numbering, and indexes as their codices and this information is taught in fraternal orders and masonic lodges. Freemasons and Greek fraternal members are educated in numeric coding. The media including financial media use numeric-word hidden communications as well to signal members of secret societies. The Stock Market is rigged gambling for initiates and is entirely run by insider trading.

That is one way they rig the stock exchange and one way they communicate their agenda to members of secret orders. Wall Street is fraudulent at its foundations because corporations are a deceptive construct. Corporations are considered a person with rights under law. Corporations are not people. Corporations are set up so the creators can own and prosper from them through shares without being held accountable for any crimes or wrongs done by them. The royal and noble families use fraudulent and covert methods to control wealth, resources, and land. Many universities were created and are owned by royal and noble families. They use their universities to recruit agents of their corporate houses. Gottlieb Daimler founded

Daimler-Benz and was born in the Kingdom of Wurttemberg covertly serving the royal family as their court factor. The Wurttemberg family have private shares in Daimler AG and Mercedes-Benz located in their territory of Stuttgart, Baden-Wurttemberg. Daimler AG has about 235 billion in assets. The German nobility conspire together and share ownership over these enterprises. The Wittelsbach held rule in Mannheim, Baden-Wurttemberg. Claus E. Heinrich went to the Wittelsbach's University of Mannheim and was a Board Member for SAP SE which develops enterprise application software. SAP is located in Baden-Wurttemberg and has assets at about 44 billion. Dietmar Hopp is a co-founder of SAP, is worth about

6 billion, and lives in Baden-Wurttemberg. Hasso Plattner is worth 15 billion as a co-founder of SAP and was educated at Karlsruhe Institute a college founded by the Badens. Georg F. W. Schaeffler is worth about 11 billion and is from Erlangen, Bavaria and his mother is worth 4 billion. The Schaefflers are court factors for the House of Wittelsbach and House of Wurttemberg. The House of Oettingen-Spielberg are nobles of Wurttemberg and Bavaria and they serve the Wurttembergs, Badens, and Wittelsbachs with Prince Albrecht Ernst and his son Franz Albrecht of Oettingen-Spielberg who is married to Barones Cleopatra von Adelsheim von Ernest. Stephen Spielberg is a covert relative of this family and

worth about 3 billion. Stephen Spielberg is a high level authority over Hollywood. The House of Oettingen-Wallerstein are also nobles of the Badens, Wurttembergs, and Wittelsbachs with Prince Moritz, Prince Karl Eugen, Prince Ludwig-Maximilian, Prince Friedrich-Alexander, Prince Kraft-Ernst, Prince Philipp-Karl, and Prince Leopold-Ludwig from the House of Oettengin-Wallerstein. The Wurttembergs and Badens originally ruled in Swabia and the Wurttembergs have the Swabian flag on their coat of arms. Charles Schwab who is worth over 8 billion and is the head of the bank Charles Schwab Corporation is an agent of the Badens and Wurttembergs. Schwab derives from the German

name for Swabia which is Schwaben.

The House of Wurttemberg work closely with the Hohenzollern, Waldburg-Zeil, Anhalt, Hanover, Wittelsbach, Saxe-Coburg and Gotha, and Hesse families as well as the House of Baden headed up by Margrave Maximilian von Baden along with Prince Bernhard von Baden, Princess Stephanie von Baden, Prince Michael von Baden, Prince Berthold von Baden, and Prince Ludwig von Baden. Princess Stephanie is a dangerous child murdering pedophile and witch and she oversees the Illuminati idol Gwen Stefani who is involved with sacrificing children. The Zähringen-Baden family are primarily Roman Catholic and frequently married with the House

of Wurrtemberg. The Zahringen coat of arms is of a phoenix. The Warlocks motorcycle gang in the United States is owned by the Baden-Zahringens and Wurttembergs and the Warlocks established a chapter in Germany near Baden-Wurttemberg called the Phoenix clubhouse. The Badens and Wurttembergs also own the German based Gremium MC gang which operate in Baden-Wurttemberg. The House of Zahringen-Baden founded various towns in the Holy Roman Empire including Berne, Switzerland. Udo Tschira and Harald Tschira are part owners of SAP and both worth about 9 billion. Their father Klaus was a co-founder of SAP who was from Baden and went to the Baden family established Karlsruhe Institute of Technology. The Holy

Roman families have large amounts of wealth concealed in private Swiss banks and have shares in various major corporations. They also have assets like land, gold, and resources. These families owned large amounts of land in Germany and employed bankers and businessmen through their royal households. The Wurttemberg family still own palaces in Monrepos, Altshausen, and in Friedrichshafen which is where Rolls-Royce Power Systems is headquartered. The Oppenheimer family worked as Court Factors for the House of Wurttemberg with Joseph Oppenheimer who was as a money handler for Duke Charles Alexander von Wurttemberg. Joseph Oppenheimer was executed for fraud, embezzlement, and

treason yet the Wurttemberg family that employed him were left alone. This is why Christian monarchs use Court Jews. It creates a layer of protection for them. This is what fueled the Nazi propaganda in 20th century. Royal families own the gold that Court Jews handle and they still prop up Jewish bankers today to distract from themselves and finance Nazi propagandists to blame all Jews for all evils. The House of Wurttemberg own Volksfront a Neo-Nazi organization that uses the Algiz rune for its symbol which means elk. The Wurttembergs have a deer or an elk on their coat of arms.

The Wurttemberg family spent about 600,000 rheinguldens to build their New Palace of

Stuttgart. One rheingulden would be worth about 100-140 dollars today. The royal and noble families monopolize gold and other resources. They stored gold and silver in their vaults and then would provide some to bankers which they employed as proxies as a veil to conceal their wealth. The Oppenheimer family are still Court Factors working under the House of Wurttemberg and they created and run Anglo American Corporation for the House of Wurttemberg which is a large diamond and gold mining company in South Africa and is headed up by Nicky Oppenheimer who is worth about 7 billion and his son Jonathan Oppenheimer who is worth over 6 billion. Anglo American Corporation has large shares in De Beers. Ephraim

Mirvis is the Chief Rabbi in the UK and from South Africa. Mirvis serves the Oppenheimers. Chief Rabbi of South Africa Warren Goldstein also serves the Oppenheimers. Richard Haass the President of the CFR who worked for the DOD is an agent of the Wurttembergs, Pallavicinis, and Wittelsbachs. A founder of political Zionism Theodor Herzl became friends with Grand Duke Frederick I of Baden who helped Herzl with the Zionist agenda. The American Jewish Ziff family have German origins and they are worth billions. The Ziffs are agents of the Badens and Wurttembergs. Ludwig Merckle is worth about 5 billion and is from Ulm in Baden-Wurttemberg. His father Adolf Merckle who died in 2009 was worth over 12 billion as the

founder of Phoenix Pharmahandel which is owned by Merckle Group and is located in Mannheim, Baden-Wurttemberg. The Baden-Zahringens use a phoenix on their coat of arms. The Merckle family are Court Factors for the House of Baden. Angela Merkel's first husband was Ulrich Merkel. Karl Rapp founded what is today BMW and he was from Ehingen, Baden-Wurttemberg. The Quandt family are the majority owners of BMW with Stefan Quandt worth about 15 billion today and he went to the Zahringen-Baden's Karlsruhe Institute of Technology. The Quandt family and BMW worked with the Nazis and used Nazi prisoners for slave labor. The Wurttembergs and Badens are extremely wealthy Nazis working with Jewish businessmen and they

have leverage and authority over the stock market.

Baden-Württemberg (/ˌbɑːdənˈvɜːrtəmbɜːrɡ/,[5] German: [ˌbaːdŋˈvʏʁtəmbɛʁk] (listen)) is a state in southwest Germany, east of the Rhine, which forms the border with France. **It is Germany's third-largest state**, with an area of 35,751 km² (13,804 sq mi) and 11 million inhabitants.[6] Baden-Württemberg is a parliamentary republic and **partly sovereign, federated state** which was formed in 1952 by a **merger of the states of Württemberg-Baden, Baden and Württemberg-Hohenzollern.** The largest city in Baden-

When Karl Alexander ascended the throne in the following year, Oppenheimer served as his chief financial adviser.

The Grand Duke had a pivotal role in the history of the Zionist movement. In 1896 the Grand Duke met Theodor Herzl (the founder of political Zionism) via their mutual acquaintance the reverend William Hechler, and helped Herzl in obtaining an audience with his nephew, Wilhelm II, German Emperor. After some persuasion on the part of the Grand Duke, the Emperor accepted the appeal for an audience. It took place in Palestine on 2 November 1898, during the Kaiser's visit to inaugurate the Church of the Redeemer, Jerusalem.

The law treats a corporation as a legal "person" that has standing to sue and be sued,

distinct from its stockholders. The legal independence of a corporation prevents shareholders from being personally liable for corporate debts. It also allows stockholders to sue the corporation through a derivative suit and makes ownership in the company (shares) easily transferable. The legal "person" status of corporations gives the business perpetual life; deaths of officials or stockholders do not alter the corporation's structure.

BMW dynasty breaks silence on its Nazi past

The family that owns Germany's luxury car manufacturer BMW has ended decades of silence about its role during the Nazi era and admitted to taking over scores of Jewish businesses and using tens of thousands of slave labourers at its factories during Adolf Hitler's Third Reich.

The disturbing revelations about the **Quandt dynasty, which became a major BMW shareholder in 1960, are contained in an independent 1,200-page study commissioned by the family in 2007 after its ruthless Nazi-era business practices were exposed in a German television documentary. BMW was not implicated in the report.**

"The Quandts were linked inseparably with the crimes of the Nazis," Joachim Scholtyseck, the Bonn historian who compiled and researched the study, concludes at the end of his report published this week. "The family patriarch was part of the regime."
